SUMMARY

I am a recent graduate in Industrial and Production Engineering from Bangladesh University of Textiles with a strong foundation in manufacturing systems, process optimization, quality control, and supply chain management. My objective is to contribute technical expertise and analytical skills to a dynamic industrial or manufacturing environment while continuing to grow as a professional engineer.

EDUCATION

Faizur Rahman Ideal Institute

2017

Secondary School Certificate (GPA: 5.00/5.00)

Dhaka College

2019

Higher Secondary School Certificate (GPA: 5.00/5.00)

Bangladesh University of Textiles

August 2025

Bachelor of Science in Industrial & Production Engineering (CGPA: 3.26/4)

EXPERIENCE

Tropical Knitex Limited

Intern

February – March 2025

PROJECTS

I was part of a team that developed a prototype of an IoT-Based Alert System for Machine Maintenance in Factories. My contribution to the team was –

- Brainstorming and generating ideas for how the alert system might work.
- Figuring out which materials and technology should be used to make the alert system as cost-efficient as possible.
