Phitron, (2023-2024)
- **Web Programming with Python & JavaScript**
CS50, 2024

SUMMARY

I am a motivated and technically proficient backend developer with a strong foundation in Python, Django, and database management. I have gained hands-on experience in web development through personal projects, specializing in API development. I am seeking to leverage my programming expertise and problem-solving skills to contribute to innovative backend solutions.

EDUCATION

Dhaka College

2019

Higher Secondary School Certificate (GPA: 5.00/5.00)

Bangladesh University of Textiles

August 2025

Bachelor of Science in Industrial & Production Engineering (CGPA: 3.26/4)

PROJECTS

Project Management Website

- Developed a comprehensive project management platform using Django.
- Implemented user authentication, task tracking, dynamic task status management and task dependency
- Utilized HTML, CSS, and Bootstrap for responsive user interface design
- Live site - kasn12345.pythonanywhere.com

E-Commerce Website

- Built an e-commerce platform with Django REST Framework for the backend and HTML, CSS and JavaScript for the frontend
- Integrated secure payment processing and user account management systems
- Implemented advanced filtering and search capabilities
- Applied responsive web design principles using Bootstrap framework
- Live site - nihal-123-456.github.io/Cloth-store-front-end
